Important Dress Goods News.

The selling of Dress Goods that has been going on here this month is of country-wide importance. In spite of higher tariffs and higher wool, we have brought many exceedingly pretty and stylish stuffs together at prices one might hope for when the season was over. Thousands of yards of the Newest Dress Goods bought for the new store were forced on us and are now ready for selling. If you cannot realize what forced selling has to do with prices write for samples and compare. This week the stock is at high tide.
